

# ZoomText® Magnifier

## At a glance

ZoomText Magnifier is an advanced screen magnification program that enlarges and enhances everything on the computer screen, making your computer easier to see and use.

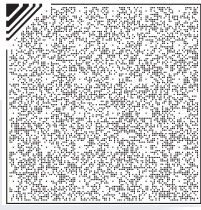

- **Flexible Magnification** - Full range of magnification levels up to 36x, including fractional powers of 1.25x, 1.5x, 1.75x and 2.5x.
- **Powerful Zoom Windows** - 8 different zoom windows.
- **Font Enhancements** - xFont technology displays high-definition text that's easy to read at all magnification levels.
- **Dual Monitor Support** - Use two monitors to expand your magnified viewing area, or use the second monitor to share a magnified or unmagnified view of your desktop with another person.

- **Enhanced Screen Colours** - Innovative colour controls improve screen clarity and reduce eyestrain.
- **Visible Pointers and Cursors** - Size and colour enhancements make it easy to see the mouse pointer.

- **Focus Enhancements** - Makes it easy to locate and follow the control focus when you navigate through application menus, dialogues and other application controls.
- **Smooth Navigation** - Navigating your applications and scrolling the view is always smooth and comfortable.
- **Desktop Finder** - Desktop Finder helps you find and launch programs and documents on your desktop, system tray and quick launch bar.

# ZoomText® Magnifier

## More Features

- **Web Finder** - Web Finder helps you find links and controls in any web page, allowing you to navigate the web with faster than ever before.
- **Text Finder** - Text Finder helps you locate words, phrases and topics of interest in documents, web pages, and application windows.
- **Application Settings** - Save unique settings for each application that you use. As you switch applications, ZoomText automatically loads the desired settings.
- **Windows Vista Logon Support** - Provides essential magnification and screen reading support when logging in Windows Vista

To use ZoomText Magnifier, your computer must have the following hardware and software:

- 450 MHz Pentium® III processor or equivalent; 1.5 GHz for Windows Vista
- Windows Vista (both 32 and 64 bit OS are supported), Windows XP (32 bit OS only, 64 bit XP is not supported) or Windows 2000
- Internet Explorer 5.0 or later
- Minimum 256 MB RAM; Minimum 1 GB required for Windows Vista and Minimum 25 MB free hard disk space

Note: Hardware requirements are higher for systems running the core features of Windows Vista.
